MINI Q-TRON Envelope Controlled Filter

Congratulations on your purchase of the Mini Q-Tron envelope controlled filter! The envelope controlled filter is a unique type of sound modifier, in which the user's playing style controls the effect. The volume of the input signal (also called the envelope) controls the cutoff frequency of a swept filter. As the volume increases or decreases, so does the pitch of the filter.

- CONTROLS -

DRIVE CONTROL - The filter sweep sensitivity control. Determines the width of the filter's sweep range by the input signal. Produces more sweep when turned clockwise

Q CONTROL - Determines the frequency peak of the filter. Creates a more dramatic effect when turned clockwise.

MODE SWITCH (LP, BP, HP) - Determines what frequency range the filter will pass through. Emphasizes lows in LP (Low Pass), midrange in BP (Band Pass), and highs in HP (High Pass).

FOOTSWITCH - Engages and disengages the effect.

CONNECTIONS - Connect your instrument to the Input jack and your amplifier to the Output jack.

POWER - The Mini Q-Tron is powered by either a 9V battery or a 9V 100mA 1/8" tip positive adaptor. Inserting a cable into the Input jack engages the battery. For longer battery life disconnect the input cable when not in use.

- PLAYING THE MINI Q-TRON -

The Mini Q-Tron's effect is controlled by the user's playing dynamics – a stronger attack will yield a more dramatic effect, while softer playing will produce more subtle effects. Use the full range of control settings in combination with different playing techniques to obtain a number of different and unique effects combinations.

- WARRANTY INFORMATION -

Please complete and return the enclosed warranty card within 10 days of purchase. We will repair the unit for free within one year of date of purchase. If you should need to return your unit for service within the warranty period, please include a brief description of the problem as well as you name, address, telephone number, copy of your receipt, and a check or money order for \$5.00 shipping and handling to:

Electro-Harmonix
C/O New Sensor Corporation
32-33 47th Avenue
Long Island City, NY 11101
Att: Service Department

Please make checks/money orders payable to New Sensor Corporation.
