

philosopher's tone™ MICRO USER'S GUIDE

Welcome to the realm of Pigtronix!

Your new Philosopher's Tone is a versatile analog compressor / sustainer effect that produces a broad range of tones, from transparent optical compression to outrageous howling sustain and many textures in between.

It is recommended that you place the Philosopher's Tone at the beginning of your signal chain for best results. The range of each knob is significant, so experiment with the full range of each available control to find "your" sound.

EXPLANATION OF THE CONTROLS

- SUSTAIN** Sets the threshold for the compressor. Turn it up for more intense compression and sustain.
- BLEND** Determines the mix of effected and dry signal. Keep it all the way up to explore the effect.
- TREBLE** This powerful EQ is neutral in the 12:00 position and either cuts or boosts high frequencies.
- VOLUME** Sets the overall output level of the device when engaged. Turn it up for a BOOST.

POWER

The Philosopher's Tone Micro requires a standard 9VDC neg. tip power supply. Current draw is 35mA.

The Philosopher's Tone Micro does not take batteries.

The Philosopher's Tone Micro uses a Dc to DC converter to achieve 18V internal power rails for maximum headroom. DO NOT attempt to power the Philosopher's Tone Micro with an external 18V power supply.

Your Pigtronix effect pedal comes with a 1 year limited warranty on parts and workmanship. During the warranty period we will repair or replace, at our option, defective parts or pedals free of charge, and return them to the owner. Warranty service does not include damaged, modified, or misused pedals and such pedals will be subject to a standard repair charge.

What we will not do: Pay for shipping or transportation charges from you to us, or pay for any international shipping charges.

What you must do: First, contact us directly via email and describe the problem to us. If the problem cannot be resolved we will have you send your pedal directly to us for servicing

How to contact us for warranty service:

Email: tech@pigtronix.com

Warranty Limitations: This warranty does not cover defects resulting from improper or unreasonable use, accident, unauthorized tampering or modifications; and, warranty shall be considered void if chassis has been opened.

To validate your 1-year, limited warranty, please register your Philosopher's Tone Micro, within 30 days of purchase, on the web at:
