Contents

1. FEATURES & BENEFITS
2. QUICK DEMO
3. FIVE FEATURES TO KNOW AND SHOW
4. ACCESSORIES
5. Micro CUBE GX COSM AMPS AND EFFECTS

1. FEATURES & BENEFITS

- Successor to the legendary original Roland MICRO CUBE
- 50% more power than the original MICRO CUBE
- Eight COSM amp tones: Acoustic Sim, JC Clean, Black Panel, Brit Combo, Classic Stack, R-Fier Stack, Extreme, Mic
- Two sets of COSM FX: EFX (Chorus, Flanger, Phaser, Tremolo, Heavy Octave), DELAY/ REVERB (Spring, Plate)
- 8 Memories: Memory function recalls settings for each amp
- Unique iCUBE LINK provides bi-directional connectivity to iOS devices for recording, audio playback and processing and more
- Full chromatic tuner plus tuning fork function
- 1/4" headphone/line out
- Runs on AA batteries (20-25 hour battery life) or included AC adapter

2. QUICK DEMO

The Quick Demo is a way to get a customer interested in a product in less than 60 seconds.

Before You Start

1. Connect a decent guitar to the input of the amp.
2. Set the tone control to 12:00 (straight up).

3. Press the TUNER Button.

4. Tune the guitar.
5. If you have access to an iOS device (iPhone, iPad, etc.), download the free CUBE JAM app from the App store. Take a few minutes to get familiar with it.

6. Connect the iOS device to the iCUBE Link with the included cable.

The Quick Demo: Show the Sounds and Memory

STEP ONE: Show some amp tones

1. Turn the AMP TYPE knob to select a COSM amp.

2. Play (or have the customer play) some chords and leads appropriate for the sound.
3. Experiment with the GAIN, TONE, EFX, and DELAY/REVERB to check out their sounds.

4. Press the MEMORY button.

4. Play the sound. Compare it to the sound with the Memory off.
5. Repeat these procedures with other amp sounds.

STEP TWO: Show iCUBE Link and CUBE JAM app

ABOUT iCUBE Link and the CUBE JAM App

CUBE JAM is a free app for iOS that allows playback of MP3 audio from any iOS audio library through an iCUBE link equipped amp or any other compatible audio playback device. Its many features make it perfect for jamming to your favorite music or practicing new songs or lessons. It can manipulate the speed, pitch and center content of the audio to suit the player just by tapping and swiping the icons, and set A/B start/stop loop points for practicing selected sections of songs. It also can record from any iCUBE Link amp, including performances along with the audio library.

1. If you have the CUBE JAM App on an iOS device, play along to the demo song, and show the A/B, SPEED, PITCH and CENTER CANCEL features.

3. FIVE THINGS to KNOW and SHOW

- 1. New, updated version of the most popular battery-powered modeling amp in the world**
