

KARMA
BOOST

KARMA
BOOST

It's time to **BOOST!**

Congratulations on your purchase of the **KARMA BOOST**, a premium boutique boost pedal from T-Rex Effects!

The **KARMA BOOST** might look simple at first sight, but this pedal is far from that. Prepare for your presence on stage to be heard! Not only will your solos really cut through, the **KARMA BOOST** will also compensate for the power often lost across long cables and many pedals. It can accentuate gain and sustain produced from other pedals. The extra punch and detail the **KARMA BOOST** adds to any guitar sound makes it an essential fixture to your pedalboard.

A one-knob wonder

Your **KARMA BOOST** only comes with a single knob - the **BOOST** knob.

What you need to know, however, is that the **KARMA BOOST** is a *non-linear* boost pedal. This means that the character of your sound changes ever so subtly as you turn the **BOOST** up or down.

So whatever you do, take the time to *listen* as you go about setting your boost. If you do, you'll soon discover that this pedal is about much more than just added volume.

Technical Specifications

Input Impedance@1KHz	Higher than 1M Ohm
Output Impedance@1KHZ	Lower than 1K Ohm
Power supply Voltage 9V DC	Minimum 8V DC / Maximum 12,5V DC
Current Draw @ 9V DC	10 mA
Maximum Input signal Vp/p	2Vp/p
Battery Type / Battery Life	9V battery 6F22 / 12 hours
External connectors	Input Jack, Output Jack, 9V DC jack
Controls	ON/OFF switch, Boost
Pedal size incl. knobs (W x H x D)	60 x 50 x 117 mm / 2,4 x 2 x 4,6 inch
Weight excl. battery & packaging	0,210 kg / 7,4 oz
